

# A Leader in Custom Dewatering Solutions

*ABOVE: Industry first 4 meter wide Gravity Belt Thickener, 1200 gpm, City of San Francisco.*

*RIGHT: 2m 3DP, San Antonio, TX. No platform or stairs.*

*RIGHT: 1.0 m model 3DP designed to operate either as a Gravity Belt Thickener or Belt Press. A Flop gate assembly after the independent gravity zone directs sludge to either the thickened sludge screw conveyor or the pressure zone of the belt press, Castlerock, WA.*

*BDP Industries began fabricating equipment over 25 years ago. With over 700 installations globally. BDP Industries is one of the most modern and complete solids dewatering suppliers in the world.*
